ANTI-MICROBIAL TARGETING CHIMERIC PHARMACEUTICAL

Abstract of the Disclosure

5

10

The present invention is based on the discovery of a composition that provides targeted anti-microbial effect. Specifically the composition contains a targeting moiety which recognizes a target microbial organism and an anti-microbial peptide moiety which has anti-microbial activity. In addition, the present invention provides methods of treating a microbial infection, *e.g.*, on mucosal surfaces by using the compositions provided by the present invention.
